Sizing guide: where to size for girdles

Waist - Between the lowest rib and hip, identified by bending the body to the side.

Measure at the navel. Perform this facing the side of the patient.

Hip - The laterally projecting region of the pelvis and the upper part of the femur, together.

Measure around the fullest part of the hip and buttock. Perform this facing the side of the patient.

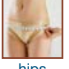

Thigh - The maximum horizontal circumference of the upper leg, taken close to the crotch.

Measure the widest part of the thigh near the crotch.

Sizing tips

1. Measure pre-operatively with procedure in mind.
2. High volume liposuctions, abdominoplasties and full body lifts must also be measured post-operatively to ensure correct fit.
3. The hips should be considered the main driving point of measure. The thigh is the least critical.
4. Select the larger size if size range falls on two different sizes.

SHAPEWEAR COLLECTION
ACTIVEWEAR COLLECTION

ME-850 shown here. See page 64.

The Marena Everyday Collections are the world's premiere compression garments for everyday use. The products, manufactured out of our patented ComfortWeave® fabric, are recommended by physicians in more than 68 countries around the world. In addition to slimming and toning your shape, the garments also serve as third stage recovery wear for post-operative use.

For men, Marena offers exercise pants and shirts that will help boost your performance and provide support. Like our women's line, our men's wear will take off inches and bulges from the abdomen and back, providing a trim, tailored look.

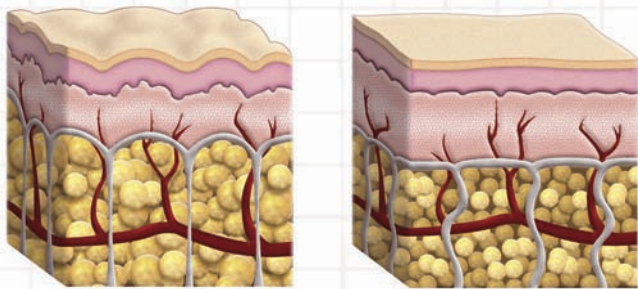

In addition to utilizing state-of-the-art technology, our products are inspired through feedback from athletes, medical professionals, and consumers around the world. To read our customer reviews, testimonials, and suggestions, (or send us your own) please visit www.MarenaEveryday.com.

How it works:

Slims you down

Marena Everyday is engineered to provide the perfect balance of power and stretch in all directions with unprecedented slimming power and wearing comfort.

Typical Results - Inches "Slimmed"

Enhances skin tone*

Medical grade compression improves lymphatic drainage, smoothing the skin and reducing the appearance of cellulite.

Reduces Soreness*

Wearing compression garments during exercise significantly reduces muscle impact and vibration which is a major cause of fatigue and soreness.

Kills bacteria

Permanently inhibits the growth of bacteria, mold and mildew, leaving you with a fresh, clean feeling all day, every day.

Keeps you cool and dry

The COOLMAX® moisture management system moves perspiration away from the body, and through the fabric, where it can evaporate quickly, allowing the wearer to feel cooler and more comfortable.

*See MarenaEveryday.com for related clinical studies.

ME-300 Mini Shorts

The mini shorts minimize the hips, tummy and thighs and make inches disappear. They work great under skirts, shorts or dresses.

ME-400 Shorts

The shorts are designed for slimming and toning from waist to above the knee. COOLMAX® moisture management system keeps you cool and dry

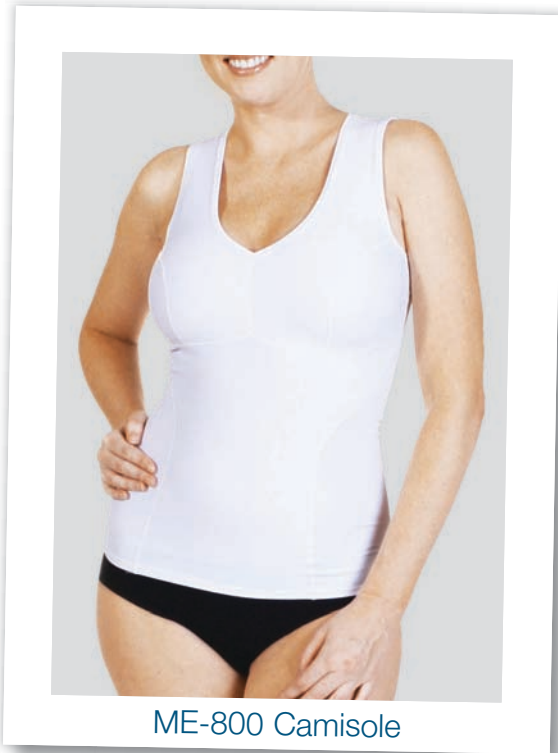

ME-500 Capris

Wear them under your slacks, skirt or dress or combine them with your favorite top and slim down up to a full dress size.

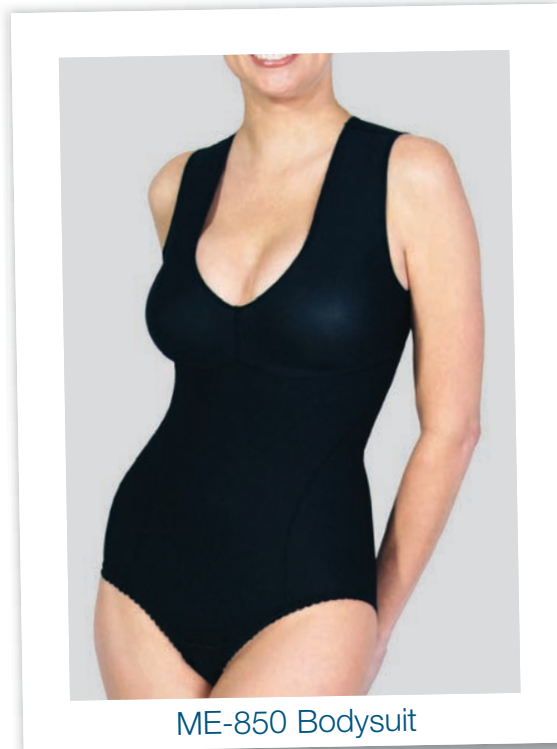

ME-600 Leggings

Body-shaping leggings that slim and smooth the tummy, hips, thighs and rear. COOLMAX® moisture management system keeps you cool and dry

ME-800 Camisole

The cami smooths the tummy, love handles and back and will make you look slimmer and more contoured. The comfortable bust support shows off your figure under blazers, jackets and blouses, but it can also be worn alone.

ME-850 Bodysuit

Our sleek bodysuit has you covered from top to brief-style bottom! A high-cut back eliminates any back rolls and bra lines. A deep v-neck and *seamless cups* flatter any figure while giving comfortable support.

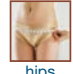

ME-800 and ME-850 back

Sizing Tips:

1. For bottoms, measure waist and hips.
2. For camisole and bodysuit, measure waist and bust.
3. If you measure in between sizes, use the larger size.
4. For help: In the U.S. call 1-888-462-7362. Outside the U.S., call your local distributor.

ME-700 Sports Bra

This lightweight sports bra offers shaping and support with minimal construction. High racer back and medium-width straps. Layered under your favorite top, the high racer back bra keeps you comfortable during any workout.

ME-710 Power Bra

Those who want more control in their sports bra can't believe the optimal support of this high impact bra - without any wires! The ME-710 enhances your shape without flattening your bust and ensures a confident, no-show coverage.

The mini shorts are perfect under your workout shorts or tennis outfit. Compression zones target the tummy, hips or thighs for a slimmer and more toned look. Soft waistband and flat seams won't pinch or dig in.

Doubling as shapewear, the ME-400 shorts are perfect for the individual who wants the benefits of compression **without the stripe of the ME-100.**

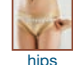

Doubling as shapewear, the ME-500 capris are perfect for the individual who wants the benefits of compression **without the stripe of the ME-200.**
